3. Who does what

When	What	Who
This week	Assign the P1 cases in the case review sheet	Head of fraud operations
This week	Hold outgoing transfers on the accounts of the suspected ring while it is reviewed	Investigators
Next close	Load the rule pack in shadow mode and pass its self-test	System owner
Within 30 days	Enter the outcome of every closed case	Investigators
Within 90 days	Review shadow results with compliance before anything blocks a payment	Compliance

4. How the files work together

- Update the **case review sheet** as cases close. In the dashboard, choose *Load the updated file* and pick it: progress updates, and the file stays on your computer.
- Every outcome you enter becomes a label for the next run.
- The **presentation** has speaker notes on every slide, and its charts can be edited in PowerPoint.
- The **rule pack** runs in shadow mode for a month before anything blocks a payment.
- Editing the Excel and PowerPoint files needs Office, or a free tool such as Google Sheets and Slides. Reading them does not: both are inside `00_START_HERE`.

5. What we need for the next run

Transactions, alerts and cases for the new period, with the outcomes from the case review sheet; any rule changed since this run; any change in the team's capacity; the decisions of compliance.

6. Data and access

All client data will be deleted within 10 business days of the end of the engagement (or retained for the next run as agreed).
